Interested in using **high resolution satellite imagery** for your research, then this workshop is for YOU.

Please join the FIU GIS Center & FIU Student Chapter of ASPRS as we welcome Rocio Carrero, Customer Success Manager, Education & Research at Planet. This virtual workshop will be streamed from GL 540 and will include an introduction to the satellite imagery platform and applications for use in South Florida and beyond.

Rocio Carrero is an Environmental Scientist with 10+ years of experience in academia who now works helping universities to use Planet Data.
